

3D was cool then.
Today it can save your life!

York County's only 64-slice CT Scan

A 10-second, painless, full body scan and we're looking inside the human body in three stunning dimensions, diagnosing complex medical issues quickly and with remarkable accuracy. When seconds count, there's nothing better than SMMC's 64-slice CT technology – it's one of the few available in Maine and it's right here, close to home, at SMMC. See for yourself (you don't need the funny glasses!) at www.smmc.org

SMMC's new CT technology -- it's just one of the many reasons we've been named **One of America's Top 10 Exemplary Hospitals** for two years in a row! With quality this good, you don't have to go anywhere else.
